

Brexit Statement

Introduction

With the transition period finishing in 2021, the UK has now left the EU. Tables for Business have adjusted some aspects of their business model to correspond with new rules and continue to ensure our supply chain is not affected.

Our Business and Supply Chain

All products are designed and manufactured in the UK, and we will continue to do so moving forward. Whilst our holding facilities for stocked materials are based in the UK, most of our core boards are imported from Europe.

Tables For Business will not incur any additional delivery and or design costs as a result of Brexit, though it is not guaranteed that imported components will not be affected in the future. Should there be a price increase, only the component cost will be passed on to our clients. Our manufacturing, delivery charges and storage facilities will not be affected.

Tables for Business are taking steps to mitigate any changes along the supply chain as a result of Brexit. Please do not hesitate to get in touch to discuss further. Many thanks for your continued support.
